- LED control display
- On / off control via light barrier

Also shreds paper with staples and paper-clips.

**10 YEARS CUTTER WARRANTY**

# The new Shredder Range

## Convincing performance

The new technical concept offers performance, which can normally only be found in more expensive shredders.

Designed for desk use the new shredder range is an allrounder, which shreds paper, credit-cards and CDs in strips or cross cut.

## Highest safety standards

To ensure simultaneously a safe and comfortable operation, the new MARTIN YALE shredders 1000, 2000 and 3000 consist of security slots, one-hand-buttons, a light barrier and lockable castors.

Weight	appr. kg	9	10	12	14	18	19

**Model SC:**  
Fine strips  
Illegible 4 mm strips are always recommended whenever high capacity is required and the data can be classified as being of a "general" nature.

**Model CC:**  
Small cross cut particles  
The fine cross cut particles ensure high security and a better exploitation of the bin capacity.

\* based on 70g/m² paper. Sheet capacities vary depending on quality, weight, grain of paper and sufficient power supply.

\*\* average theoretical sheet capacity / minute.
